

SECTION 1

1. The HIV Cluster consultations regarding programme guidelines, strategies or policies include Donor partners, implementing partners, SANAC, researchers, clinicians (where relevant), provincial counterparts and relevant internal clusters/directorates
2. The programmes are funded by National Treasury through Conditional grants
3. The HCT campaign was run on the back bone of the public health facilities and its funding was included in the conditional grant allocation per province
4. The programmes are implemented Nationally (including the HCT campaign)
5. There is a National Tender in place for HIV rapid test kits for HIV testing implementation
6. Programmes have targets and these are used against actual data to measure the success of the programmes
7. Quarterly reviews are conducted to monitor the programme
8. About 13 million tests were conducted during the HCT campaign
