3.6 Time of Notice:

We African National Congress Women's League leadership took a decision as to invite all Pearston women on the 1st April 2015 @10h00 venue Town Hall whereby we all agreed as to have this mach or procession.

Our demands to the Local Magistrate:

- No bail to the murders of this woman (pregnant woman) as they have killed 2 souls, she was raped and brutally killed.
- A young lady was raped and her mouth was full of river sand she is still hospitalized the rapist is still out there.
- This is not the first or the last one, we know of more than 3 women who were raped and murdered from the same environment.
- This has extended we buried some male who were murdered still the murderer is out there.
- Man (boyfriend, husband) abusing women – emotionally, physically we say stop now enough is enough.

Our Concerns as women:

- Our kids are stabbing each other at a very young age because of drugs, substance abuse, schools are empty.
- Young women sitting with babies at the Tavern when will they get hurt.
- **We have drugs challenge in our town, still government is allowing the sellers as to get bailed to be able to continue selling them.**
- Substance abuse (drinking alcohol), we do understand that the Taverns rules and regulation for business is that weekdays closing time is 22h00 and weekends 02h00, however the challenge is when they go home that noise from the streets and individuals playing loud their music, that fighting, screaming.
- We have a Bangladesh or Foreigner man Hooshain in Donker st we are planning as to request that our Councilor as to intervene we had enough of him.

Suggestion to the Local SAPS Captain:

We appreciate your efforts we can witness that in some cases that we have reported to your office there is something that you are doing with your team. Keep up the good work.

We suggest that you deploy your team during that take as to keep peace for all, if you can as well lock them up and fine them immediately after hours those who are making noise on the street.

The individuals meaning those who are playing music at their house (s) at least at 22:00 lower your music and early hours around 05:00, we do not say there will be no occasions that is understandable it is a once off not everyday or weekend.

We are prepared as to work together with you.
