Media Statement: no embargo

Immediate Release

17 April 2012

Diepsloot Update

Johannesburg Water would like to inform the residents of Diepsloot that progress is being made in clearing contamination traces in some sections of Diepsloot. JW can confirm that “Diepsloot West Proper” is clear of contamination.

We are continuing the flushing process and taking samples until we have satisfactory results. We therefore appeal to the residents to remain patient and in use of the water tankers while JW restores the water system back to normal. “Diepsloot West Proper” tankers will be redirected to the affected areas to increase interim measures.

We are urging residents NOT to drink tap water until they are told to do.

JW is working around the clock to restore drinkable water in all sections of Diepsloot.

End
