Subject: CCB : CELL 6

Hi John,

The GIU, as you know, is investigating the murder of Anton Lubowski in which the operatives of CCB Cell 6 are implicated. I was told that you are working on CCB activities. Please advise me urgently what information is available on their activities in SWA before that country's independence. We have various impending meetings next week for which we would like to have all available information.

If any of it is in report form or can otherwise be sent by E-Mail please attach it for me.

Please acknowledge.

Thanks,

Francois Malan

22/7 Call from JD

They are busy with a general report on the CCB. This should be ready by Wednesday. For a workshop meeting in Dbn.

I ask that they put us on their distribution list - He says OK

He thinks

- cell 6 was in fact mainly operative, in SWA. It reinforced local cell 8.
- Head was Rolf van Heerden @ Frik, who per Steyn report went back from CCB → DCC in 1990 (But not sure of ID)
- Corrie Meerholte was probably "Helge Muller" + might have been 2 IC.
