MEETING BETWEEN JAN-AKE AND R, VERSTER

I asked J-A about his meeting in London with Rieg Verster. He says they had a talk but RV was not prepared to make a written statement at that time. They did talk about Lubowski. Verster said the following:

- At the time he worked for DCC.
- He was monitoring the telephone of AL's home.
- AL conducted several long calls with his estranged wife in C.T. The tenor thereof was that he wished for reconciliation and might even move to C.T to his family. (*Note: this squares with info I have from a friend of Mrs L. to the same effect*).
- RV tried to recruit him but did not succeed. **When he was killed AL was not an agent for MI.**
- RV was surprised when AL was killed. He does not know who did it.

J-A feels that RV might be a useful source, who knows more than he had told him.
