**ATTENTION: WILSON MAGADLA**

Dear Mr Magadla,

This office is currently giving priority to the investigation of the Webster and Lubowski matters. In both cases pressure for results is mounting from various sides and it is vital that we now obtain all available information before preparing for the s. 29 hearings. In this regard we require your assistance as set out hereunder:

**WEBSTER**

- Our information is that NIA is in possession of a dossier on this matter. It is vital that we obtain a copy thereof, and/or any other documentation they have.
- We require copies of all relevant documentation in possession of the A.G., Pretoria. In particular, we need the statements of the ladies known as Amor, and Julie Wilkens.
- We need to know what documentation on this matter is held by your office. Please provide a list, whereafter we shall indicate which items we require.

As previously requested, we require copies of the amnesty applications of

**Joe Verster**  
**Chappie Maree**  
**Staal Burger**  
**Calla Botha**  
**Other known CCB members**

**LUBOWSKI**

- Similarly, we require copies of all files and/or documents held by NIA and MI on this matter. Our information is that such files do exist.
- We require copies of all documents held by the AG, Pretoria. If this is too bulky, some other practical arrangement should be made.
- We require an inventory of all pertaining documents held in your office.

We require these documents **URGENTLY**. Please advise us soonest on what you have been able to obtain and what the prospects are on the other material. We also wish to refer to our investigation plan e-mailed to Glen on 8.5.97.

Thanks,

Francois Malan
