Date	22 September 2015	

## Remainder of farm Rietfontein 115-IR (Brakpan Airfield)

The following document with reference to the above mentioned was submitted to the Dolomite Risk Management Section (DRMS) of the Ekurhuleni Metropolitan Municipality by the Real Estate Department

Memorandum from the Brakpan Real Estate Department: Remainder of farm Rietfontein 115-IR (Brakpan Airfield)

### Existing geological information and conclusions.

According to the geological database of the DRMS at the EMM, the site is not affected by dolomite and regarded as non-dolomitic. The DRMS of EMM has therefore no special requirements in terms of dolomite. This department has also no further information.

It is recommended that a foundation investigation be conducted for foundation design purposes.

If you require any additional information, please contact Mr. Pilusa Mashamaite (011 999-4666).
