METHOD STATEMENT
ATHLONE COOLING TOWERS
DISPOSAL/RECYCLING OF DEMOLITION CONCRETE/RUBBLE

- 1) After the demolition has taken place, the demolition concrete /rubble is carted to the mobile crusher
- 2) The mobile crusher has been erected on a site rented from Transnet and situated on Voortrekker Road, Salt River
- 3) The crushing process sorts and removes the iron/Steel from the concrete
- 4) The iron/steel is sold to scrap merchants
- 5) The demolition concrete/rubble is crushed for reuse into the equivalent of G5 (sub base) material
- 6) This crushed material is used by Cape Brick for the manufacture of bricks
- 7) This crushed material is also used as sub base for the building of roads
- 8) This method of disposal by recycling eliminates the use of dumping sites
